

New Features

Effective April 22, 2021, Dealer Admin is updated to Version 2.61.1, and effective April 29, 2021, Tech APP is updated to Version 2.16.0.

COM Series System Test Support

Dealer Admin and Tech APP now enable you to remotely perform a **System Test** on any COM Series Universal Communicators. Depending on the communicator type and configuration, you can perform the following System Tests:

- **Communication Test** (Network or Cellular)—Perform a communication test with the panel according to connection type. For example, test a primary Network connection and a backup Cellular connection.
- **Z-Wave Test**—Perform a diagnostics test to determine whether Z-Wave devices are communicating with the panel. Tests up to 10 devices at a time.
- **Z-Wave Optimization**—Optimize a system's Z-Wave mesh network.
