Version 712 Update

Version 712 (5/3/21) firmware is now available on Dealer Admin (dealer.securecomwireless.com).

Effective June 7th, 2021, all XR International Series Panels are being manufactured with Version 712 firmware.

Panel Features

Improved Wireless Test Operation

With XR INT Version 712, the Wireless Walk Test has been renamed the Wireless Test. This test has been improved to provide better testing of the transmitters. The test will now run for a total of 5 minutes. During the 5 minutes the transmitters are being tested multiple times. In order for a transmitter to pass it must have checked in 3 or more times. A timer will be displayed at the keypad to indicate that the test is in progress. At the end of the 5 minutes the results will display which transmitters have failed the test.

Supporting Software Updates

- Dealer Admin Version 2.64.0
- Remote Link Version 2.12

Obtaining the New Firmware

XR International Series firmware updates are available, free of charge, on Dealer Admin.
