

FAST, SIMPLE, SECURE

XTLplus

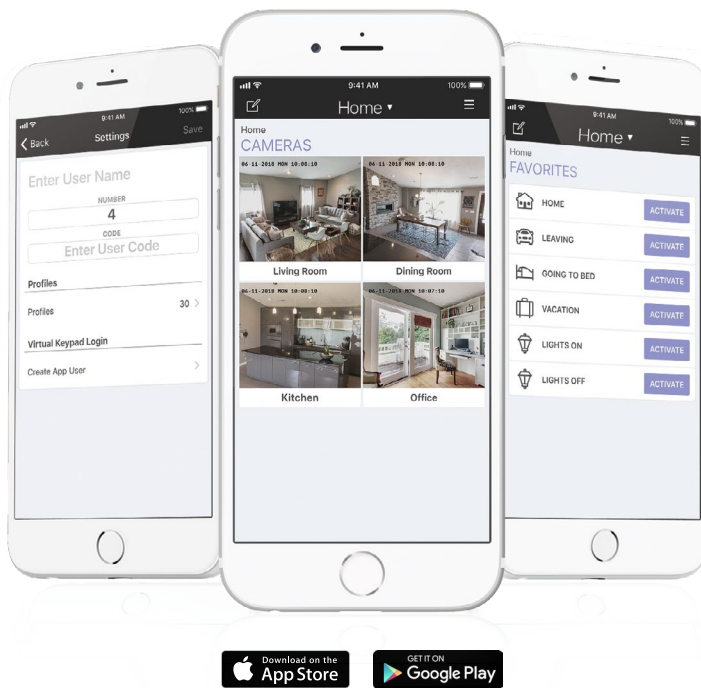

You can depend on the XTLplus™ wireless security system to provide professional security that will keep your family and your home safe. Because it's a wireless system, there are no holes in walls, so installation is fast and clean. The system comes custom configured with everything you need today, which you can easily build onto in the future.

Rely on Network, Wi-Fi or Cellular Communication

For the strongest protection, rely on a security service to *constantly* monitor your system and dispatch emergency responders.

Virtual Keypad™

Remote System Control

The XTLplus wireless security system enables some amazingly convenient features. You can control the system from wherever you are with your cell phone, tablet or computer.

- ▶ Turn the system on or off and receive alerts any time there's a change in the system's status.
- ▶ Virtual Keypad™ app allows total remote control of the system.

Control much more than just the security system by adding Z-Wave devices and turn a smartphone or tablet into the ultimate remote control.

- ▶ Turn lights on and off.
- ▶ Control thermostats to reduce energy use.
- ▶ Lock and unlock doors manually or automatically.
- ▶ Use geofencing to get arming reminders.

Video Service

Keep an eye on things, no matter where you are.

- ▶ Add cameras, interior and exterior.
- ▶ View live video on your smartphone or tablet.
- ▶ Receive video clips when motion is detected.
- ▶ Schedule a recording.

Don't settle for just any security system. The XTLplus is fast, simple and secure. Call us today to find out more about the XTLplus.
