

### Version V5.5.120 Build 230222 Technical Update

Effective April 7, 2023, all DMP Model V-4061DB Video Doorbells will be manufactured with updated Version V5.5.120 Build 230222.

#### Improved Wi-Fi Connectivity

Version V5.5.120 Build 230222 resolves an issue where the doorbell would not automatically rejoin Wi-Fi networks after losing connection.

### Obtaining the New Firmware

Firmware updates are available, free of charge, on Dealer Admin ([dealer.securecomwireless.com](https://dealer.securecomwireless.com)).

Follow the instructions below to update firmware locally with an SD card or remotely on Dealer Admin.

#### Update the Video Doorbell Locally with an SD Card

1. Navigate to Dealer Admin.
2. Under Dealer Resources, select **Downloads**.
3. Select **Download** to save the update file.
4. Place the downloaded file on the root of a micro-SD card.
5. Power down the V-4061DB and remove the faceplate.
6. Remove the existing SD card and replace it with the SD card that contains the update file.
7. Power up the doorbell. The doorbell will say “update succeeded” when it has finished updating.
8. Remove the SD card and replace the original SD card.
9. Replace the faceplate on the doorbell.

#### Update the Video Doorbell Remotely on Dealer Admin

1. Navigate to Dealer Admin.
2. Select a system.
3. Scroll to the **Video Doorbell** section.
4. Select **Update** next to the video doorbell you want to update.
